3D Systems to Host Investor Event at NYSE

- Includes Cube Odyssey Visit -

Rock Hill, South Carolina – April 16, 2012 – [3D Systems Corporation](#) (NYSE:DDD) announced today that it plans to hold an analyst and investor meeting on Tuesday, May 8, 2012, at 11:00 a.m. EDT at the New York Stock Exchange (NYSE) in New York, NY. 3D Systems' senior management will review the company's strategic initiatives, operating highlights and financial progress, and will provide an update on its product and market development plans followed by a question and answer session.

The investor presentation will be led by Abe Reichental, President and Chief Executive Officer. The event will feature comprehensive presentations by key members of the company's senior management team that will be webcast live and a printer display to showcase the company's 3D content-to-print solutions. In addition, it will include a stop by the [Cube Odyssey](#) in Experience Square at the NYSE at the corner of Wall St. and Broad St. for visitors to experience consumer 3D printing first hand.

Investor Event Registration:

To register for the event, use the online registration link available under the [Investor Relations](#) section of 3D Systems' web site or go directly to the registration page by clicking on or pasting the following link in your web browser:

http://investor.3dsystems.com/2012_investor_and_analyst_day.

For remote participants, a live webcast of the analyst and investor day presentations will be available on 3D Systems' web site under [Investor Relations](#). Participants are encouraged to visit the web site early to register for the webcast and to download any necessary software.

For more information please contact Stacey Witten at (803) 326-4010 or via email at Stacey.Witten@3dsystems.com.

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.

More information on the company is available at www.3DSystems.com.
