V-Flash[®] Desktop 3D Printer Arrives at Historic Penland School of Crafts

– 3D Printer enables students to expand their design horizons –

ROCK HILL, South Carolina, June 29, 2010 – 3D Systems (NASDAQ: TDSC), announced today that the historic Penland School of Crafts in North Carolina is incorporating the use of its [V-Flash[®] Desktop Printer](#) into their innovative summer program. The school plans to harness this fast, affordable and precise printer to transform the way its students express their creativity and craft.

Recognized for its pioneering and continued leadership role in democratizing access to affordable 3D printing solutions, [3D Systems](#) will participate in the Penland School of Crafts guest speaker series. Rajeev Kulkarni, vice president of engineering, will present “iSolutions for the 21st Century,” a look at the growing importance of 3D printing and additive manufacturing technologies. The presentation will take place June 30th at 1:30 pm and is open to the public. To reserve a space please RSVP to philrenato@gmail.com by Wednesday morning.

“We are pleased to team up with such a prestigious school and enable dedicated educators and students to experience and harness the full potential of our V-Flash[®] 3D printer,” said Cathy Lewis, vice president of global marketing for 3D Systems.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that includes terms such as “believes,” “belief,” “expects,” “estimates,” “intends,” “anticipates” or “plans” to be uncertain and forward-looking. Forward-looking statements may include comments as to the company’s beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings “Forward-Looking Statements,” “Cautionary Statements and Risk Factors,” and “Risk Factors” in the company’s periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.
