## Quickparts<sup>®</sup> Now Offering Accura<sup>®</sup> PEAK<sup>™</sup>

- SLA<sup>™</sup> Material Withstands Harshest Environments -

Rock Hill, SC – July 14, 2011 - [3D Systems](http://www.3dsystems.com) (NYSE: DDD) announced today that [Quickparts<sup>®</sup>](http://www.quickparts.com) is now offering the Accura<sup>®</sup> PEAK<sup>™</sup> stereolithography material for rapid prototyping.

Accura<sup>®</sup> PEAK<sup>™</sup> SLA<sup>™</sup> material is an advanced stereolithography resin designed for optimal performance, accuracy and stability during prolonged exposure to elevated temperatures and humidity. It produces rigid and stable parts that can withstand adverse environments. It is an ideal choice for parts requiring high thermal and moisture resistance, and provides outstanding stiffness for demanding applications.

“Accura<sup>®</sup> PEAK<sup>™</sup> resin is an excellent option for our customers looking for a rigid, high-temp material to use for rapid prototyping,” said Patrick Hunter, Vice President and General Manager for Quickparts. “Adding a high-temp choice like Accura<sup>®</sup> PEAK<sup>™</sup> resin allows us to continue to offer the product development community the latest materials available.”

Accura<sup>®</sup> PEAK<sup>™</sup> SLA<sup>™</sup> resin is available immediately for online, instant quoting at [www.quickparts.com](http://www.quickparts.com).

### About Quickparts

Quickparts<sup>®</sup>, a 3D Systems company, provides custom manufacturing services for engineers and designers to create plastic and metal parts from rapid prototyping to production, utilizing 3D CAD files. Using patented QuickQuote<sup>®</sup> technology, Quickparts<sup>®</sup> is able to provide product designers with an ‘instant online quote’ for the manufacturing of custom parts from prototype to production. Quickparts custom manufacturing services include: [Rapid Prototyping](#) (SLA<sup>®</sup>, SLS<sup>®</sup>,

FDM, PolyJet), [Machined Plastic Prototypes \(MPP\)](#), [Cast Urethane Parts](#), [Injection Molding \(Tooling and Parts\)](#), [Sheet Metal Parts](#), [CNC Machined Parts](#), and [Metal Castings](#).

For more information about Quickparts®, visit [www.quickparts.com](http://www.quickparts.com) or call 770.901.3200. The Quickparts® blog is also available at [blog.quickparts.com](http://blog.quickparts.com).

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional end-use parts empowering our customers to create with confidence.
