## 3D Systems Expands South Carolina Printer Manufacturing Operations

- \$10 Million Investment Expected To Create 145 New Jobs
- Unprecedented Demand Drives 3D Printer Manufacturing Expansion

**ROCK HILL, South Carolina –October 28, 2013 – [3D Systems](#)** (NYSE:DDD)

announced today that it is investing \$10 million to expand its Rock Hill, SC, manufacturing operations generating 145 new jobs. 3D Systems, the recognized 3D printing inventor and global leader is committed to building a future powered by sustainable, localized manufacturing. The company already began hiring for these positions and those interested in job opportunities with 3D Systems should visit the company's careers webpage at [www.3dsystems.com/careers](http://www.3dsystems.com/careers).

"To accommodate unprecedented demand for our products, we are expanding our manufacturing operations in the Charlotte Region. We are literally **manufacturing the future** in Rock Hill and deeply appreciate all the support we've received from state and local officials," said Avi Reichental, President and CEO of 3D Systems Corporation.

"When one of our existing businesses expands, it sends a message to other companies that South Carolina is a place where they can find success," said Gov. Nikki Haley. "We celebrate 3D Systems' decision to invest \$10 million and create 145 new jobs in Rock Hill. This announcement is another indication that our economic development efforts are on the right track."

"Today's announcement from 3D Systems provides another boost to our state's manufacturing renaissance, and adds to our reputation in the advanced manufacturing sector. Every one of these new jobs will have an impact in Rock Hill and beyond," said Secretary of Commerce Bobby Hitt.

“3D Systems has been a valuable partner since joining the Rock Hill community,” said Rock Hill Mayor Doug Echols. “We’re honored they continue to grow their business here, contributing high quality, high paying, high tech jobs. We’re proud to be offering an atmosphere in Rock Hill that positions companies like 3D Systems for ongoing success.”

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike with materials ranging from thermoplastics, metals, ceramics and edible sugar. The company also provides software design tools including CAD, reverse engineering and inspection and consumer 3D printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to manufacture the future.
