3D Systems Launches iPhone® And iPad® 3D App

- STL Format Inventor Goes Mobile With Free Download -

ROCK HILL, South Carolina, December 6, 2010 – 3D Systems (NASDAQ: TDSC) announced today the immediate availability of 3D Systems netfabb Mobile, a new iPhone® and iPad® 3D content-to-print view and edit application that is available for immediate download through Apple iTunes® store.

[3D Systems](#) netfabb Mobile is a free 3D content tool that allows users to view, share and edit 3D files on their iPhone® and iPad®. 3D Systems is bringing this application to market in collaboration with [netfabb](#) as part of its global campaign to democratize access to 3D content-to-print solutions.

“As the creator of the original .stl file format we are excited to bring this powerful tool to a growing number of highly mobile users,” said Cathy Lewis, vice president, global marketing for 3D Systems. “Our ability to deliver innovative and affordable content-to-print solutions underscores our commitment to accelerate the adoption of [3D Parts](#), [Printers](#) and [Production Systems](#) across an expanding audience in the fields of education, transportation, recreation, healthcare and consumer goods.”

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, parts and production systems. Its expertly integrated rapid prototyping and manufacturing solutions reduce the time and cost of designing new products and

printing real parts directly from digital input. These solutions are used to design, communicate, prototype and produce functional end-use parts; our customers create with confidence.
